

# Thanks to Our Youth

---

Sometimes we neglect to recognize the role and the contribution our young people play in our lives and the future of the church. We need to be thankful for our teens and young people as well as our youth minister and all who help with our young people here at Karns. Look around and see just how many young people we have and think about all the activities they are involved in. Sometimes we overlook their contributions. Their faith in God and the determination to live good Christian lives is such an example for all of us. The support they show one another is something you don't find often with young folks but it's obvious among our kids. You parents of our youth can be proud of the way they show discipline and respect in their lives.

The work of the Lord they perform is so meaningful to this congregation and the community here in Karns. I don't know all they do but here are just a few examples: They wait on tables at our special events, visit nursing homes, visit our elderly, leaf-raking projects, host special events, help with the preparation and delivery of baskets during the holidays. These are just a few I can name but there are so many more. The next time you encounter one of the young folks stop them and say, "Thanks." May God continue to bless them.

"Train up a child in the way he should go; even when he is old he will not depart from it"  
(Proverbs 22:6).

**THANKS GUYS!!!!!!**

For the elders,  
Don Wagner
