

Booster, Booster, Be a Booster!

The Importance of Enthusiastic Support

Ephesians 4:14-16

Some of the most profound things in life are simple in nature. Enthusiasm is one of those things. It is a powerful thing—everyone knows that. It gets things done. It brings enjoyment both in doing deeds and in the sense of accomplishment that follows. We can see it, touch it, the air can be alive with it. Games, wars, projects, etc. are won or lost depending on its presence or absence. Let's apply it to Christianity and see what it would look like. We will be simple, but we will also be profound.

Simple, right? But it is equally profound, is it not? What does it mean to you, me, and us? Pretty simple, I think!
